

# SPEED SMARTS

Volume 13 / Issue 37

## AI SUCCESS STORIES

Has an AI saved your life?  
Done a great deed for you? If you have an interesting story about you and your AI, tell us all about it! We want to know how AIs are benefiting YOUR life.

Hear all these stories in the next special edition issue of the Speed Smarts newsletter.

## NEW CEO DONNIE TRUMPET

Within the past several months, we have seen a smooth transition from previous CEO, Brocko Bamo, to new CEO, Donnie Trumpet. The Speed Smarts board of chairman believes that with Donnie Trumpet at the helm, Speed Smarts will grow exponentially and bring many jobs to the people.

### CEO Donnie Trumpet Q & A

Let's go now to a Q & A with the new CEO himself, Donnie Trumpet...

#### **Q: What's your goal with Speed Smarts as the new CEO?**

A: Ya know, I always thought Speed Smarts was great. But you have all these computers coming in that are just bad. They're slow. They don't even look good. They have this awful color on them. We have some bad ombres here and we have to get them out. We need to build a firewall. I want to make Speed Smarts great again.

#### **Q: What is your favorite way to communicate with 'the people'?**

A: Well, I really like Tweeter. You write small things, but with big meaning. Huge almost. Very easy to get the message to the people. I love the people. The people are great. They are fantastic.

---

*"Normal programs? Boring! We want artificial intelligence. Not real stupid. SAD!"*

---

So there you have it folks! Donnie Trumpet, our new CEO.

## NEW COMPANY ORDERS

Speed Smarts employees are advised to be on the lookout for the various new orders that will be coming out as CEO Trumpet comes up with them.
